HAND & BODY WASH

*Luscious handcrafted liquid soap made from  
the finest Australian cold pressed olive*

## Our philosophy

*The Olieve & Olie difference is that all our products are made from scratch, using our unique recipes and formulations. Where we can, we source our ingredients directly from the producers. This ensures we know exactly how our ingredients are grown, that they are chemical free and harvested naturally, ethically and sustainably. These principles are really important to us, and we love supporting our local farmers and producers.*

Australian extra virgin olive oil is the hero in every one of our natural skincare products. Extracting extra virgin olive oil is a completely natural process where the olives are simply picked from the tree and cold pressed shortly after. As such, the oil retains all the natural antioxidants and vitamins from the fruit.

Egyptians have used olive oil alongside beeswax as a cleanser, moisturiser and antibacterial agent since pharaonic times. It is rich in antioxidants and Vitamin E which naturally provide anti-aging benefits and help restore skin smoothness.

## Hand Made Bar Soap

*Our luxurious and creamy handcrafted soap provides a gentle lather and superior clean without leaving your skin dry. Made in small batches using ancient traditions and recipes. Mixed and poured by hand into moulds, then aged for 3 months.*

Made with Australian grown olive oil, bursting with antioxidants and rich in Vitamin E. Indulgent and creamy soap for everyday use. Pure and natural, our soap is a superb cleanser as it conditions without drying, even for sensitive and problem skin. Unfortunately, soap has been given a bad name over the years. Our olive oil soap is actually good for your skin and is even gentle enough to use on your face. We promise you will see and feel the difference.

## Our Story

*Olieve & Olie began in 2000, as a 15-acre property on the banks of the Gunbower Creek, 50km west of Echuca. The owners, Andy & Jude Steele, planted 2000 olive trees. The climate and soil of the property was the perfect condition for growing olives. The trees flourished, and the olives were abundant and of superior quality. Shortly after their first harvest, Jude began making her first batch of olive oil soap in the farm-house kitchen at the grove.*

In 2010, Andy & Jude sold their grove and moved to the Mornington Peninsula. Olieve & Olie continued to grow from their studio in St Andrews Beach. The sea-change allowed Jude to concentrate on growing the business, and the proximity to Melbourne was a great advantage. They still sourced their olive oil from their old grove, maintaining the connection and quality of all their products. Andy heads north every year to prune the old grove, and they have a great relationship with the new owners.

It wasn't long before Andy & Jude outgrew their studio in St Andrews Beach. In April 2015 their daughter, Sarah, joined the team. With a background in Accounting, Sarah moved the business into a purpose-built factory in Rosebud, giving them room to grow. In 2017 Sarah's brother, Hal, joined the business and they expanded into a second factory. Winning a Gift & Life InStyle Gala Award in 2016 and runner-up in 2017, and then a Finalist in the Peninsula Business Awards in 2018, Olieve & Olie is real 'kitchen to factory' success story.
